HELICOPTERS OF THE FUTURE CHALLENGE

In 2023 Children's Air Ambulance celebrates the 10th anniversary of our first patient transfer.

We're inviting you to tell us in words, pictures or both, what you think helicopters will look like in the next 10 years.

What special features will they have, what will they do, will they be fuelled by rubbish or piloted by remote control?

Get creative and let your imagination fly!

Enter today for a chance to win an annual family pass to LEGOLAND Discovery Centre, Birmingham.*

*Up to a family of four.

Much has changed within our pioneering service in the past 10 years, from upgrading our helicopters to developing and launching the first incubator on a rotary-wing aircraft.

We continually seek out new advancements and innovations to benefit our service and our little patients.

Use the space below to draw, list and tell us more about your ideas.

Check out our website to find out more about our history.
